

**Petition Opposing Recreational Rail Service**  
**Seascape, Rio Del Mar, Aptos, Seacliff, Capitola**

We, the undersigned, residents of Santa Cruz County, demand that all governmental activities on the ill-conceived recreational rail service (tourist trolley) project be abandoned.

At all levels of government, we are in an economic crisis that requires great discretion on everyone's part in prioritizing the funding of public projects. We do not wish to see millions of our public transportation dollars wasted on a misleading project for which no pressing need exists, and which has not met any test of economic feasibility.

We ask County leaders to exercise fiscal responsibility and direct our limited transportation funds toward solving the staggering number of urgent transportation problems already clearly identified.
