RE: Bicycle Committee Involvement in the Sanctuary Bay Trail

Dear Ms. Sevco:

The Santa Cruz County Regional Transportation Commission (SCCRTC) maintains a Bicycle Committee and an Elderly and Disabled Technical Advisory Committee (E&D TAC) which provide input into bicycle and pedestrian related issues in the County. Members of the SCCRTC committees are actively involved in subcommittees on various bicycle and pedestrian related projects. The Bicycle Committee has provided insightful comments for the San Lorenzo Valley Trail Feasibility Study and the Wilder Ranch Path Extension. The E&D TAC provides valuable input into pedestrian related projects. We would like to offer their input on issues related to the Sanctuary Bay Trail, specifically regarding alignment of the trail between Aptos and the Monterey County line.

I have assigned Sean Co to attend the Steering Committee and the Sanctuary Inter-Agency Task Force meetings to provide assistance to AMBAG and the Task Force staff in developing alternative alignments and background data for the above noted areas and trail segments and as a liaison to the Bicycle and E&D TAC Committees.

Please contact me or Sean Co at 831-460-3200 if you any questions or comments.

Sincerely,

Linda Wilshusen,  
Executive Director

Cc: Susan Pearlman, Santa Cruz County, Bicycle Committee, E&D TAC
