## **DISCUSSION**

As part of the Commission's Project Monitoring and Assistance Program, staff works with local project sponsors to ensure timely use of federal and state transportation funds allocated by the Regional Transportation Commission throughout the year. As a way to update the Commission on the status of transportation projects in the region, staffs from local agencies are regularly invited to provide updates on their projects at Commission meetings.

Staff from the Santa Cruz Public Works Department will give an oral presentation on the status of their transportation projects at this meeting. A list of Commission-funded transportation projects lead by the City of Santa Cruz is attached (Attachment 1).
