RE: City of Santa Cruz – FY 2005-06 TDA Article 8 Allocation Request

Dear Ms. Dellin:

Please accept this letter as a FY 2005-06 TDA Article 8 allocation request for the following projects:

FY 2005-06

1. **Bikeway Striping and Minor Improvements (\$18,000):** This project provides for the annual re-striping of the City's 30 miles of bikeways, maintenance of bikeways and minor bikeway improvements. This project is entirely supported with TDA funds.
2. **Shared Roadway Marking (\$30,000):** This project provides for the striping of City streets with a "SHARROW" (shared roadway marking) that designates the travel lane is to be shared with the bicyclist. The newly adopted pavement markings will be used where the City's bike plan calls for new bike lanes, but due to the high cost to widen or remove parking, cannot be installed in the near future.

The City's remaining unallocated balance will be used to match existing grant applications (should the City be awarded those grants), and future bikeway striping and parking projects.

As with all City claims, the City will commit to maintain any facilities provided with these funds for 20 years and will prepare all necessary environmental review for these projects. All of the projects above are consistent with the City Bicycle Transportation and Pedestrian Plans and the RTP.

Please call me at 831-420-5422 if you have any questions or need additional information.

Sincerely,

Christophe Schneider
Assistant Public Works Director/City Engineer
