Santa Cruz County Regional Transportation Commission’s
BICYCLE ADVISORY COMMITTEE

AGENDA

Monday, February 9, 2015
6:00 pm to 8:30 pm

1. Call to Order
2. Introductions
3. Announcements – RTC staff
4. Oral communications – members and public

The Committee will receive oral communications during this time on items not on today’s agenda. Presentations must be within the jurisdiction of the Committee, and may be limited in time at the discretion of the Chair. Committee members will not take action or respond immediately to any Oral Communications presented, but may choose to follow up at a later time, either individually, or on a subsequent Committee agenda.

5. Additions or deletions to consent and regular agendas

CONSENT AGENDA

All items appearing on the consent agenda are considered to be minor or non-controversial and will be acted upon in one motion if no member of the Committee or public wishes an item be removed and discussed on the regular agenda. Members of the Committee may raise questions, seek clarification or add directions to Consent Agenda items without removing the item from the Consent Agenda as long as no other committee member objects to the change.

6. Accept draft minutes of the December 8, 2014 Bicycle Committee meeting (pages 3-5)
7. Accept summary of Bicycle Hazard reports (page 6)
8. Accept Bicycle Committee roster (page 7)
9. Accept Draft 2015 Bicycle Advisory Committee meeting schedule and tentative agenda items (page 8)
10. Accept letter from the Bicycle Advisory Committee to the Office of Traffic Safety in support of the County of Santa Cruz Health Services Agency 2016 grant application (page 9)

11. Accept letter from the Bicycle Advisory Committee to Board of Supervisors McPherson and Coonerty regarding Graham Hill Road bicycle improvement recommendations (page 10)

REGULAR AGENDA

12. Green bike lane treatments at select freeway interchanges – Amelia Conlen, Bicycle Advisory Committee member and People Power Director (page 11 – 13)

13. Draft Committee Member travel expense reimbursement policy – Grace Blakeslee, Senior Transportation Planner (page 14- 17)

14. AMBAG’s 2015 Public Participation Plan update – Grace Blakeslee and Cory Caletti, Senior Transportation Planner (page 18-24)

15. October 2014 Bicycle and Mode Split Counts – Ginger Dykaar, Transportation Planner (page 25-37)

16. Identify priority bicycle projects to serve as good grant candidates – Rachel Moriconi, Senior Transportation Planner (38-46)

17. Member updates related to Committee functions

18. Adjourn

NEXT MEETING: The next Bicycle Committee meeting is scheduled for Monday, April 13, 2015 from 6:00pm to 8:30pm at the RTC office, 1523 Pacific Ave, Santa Cruz, CA.

HOW TO REACH US
Santa Cruz County Regional Transportation Commission
1523 Pacific Avenue, Santa Cruz, CA 95060
phone: (831) 460-3200 / fax (831) 460-3215
email: info@sccrtc.org / website: www.sccrtc.org

AGENDAS ONLINE:
To receive email notification when the Bicycle Committee meeting agenda packets are posted on our website, please call (831) 460-3201 or email ccaletti@sccrtc.org to subscribe.

If you wish to attend this meeting and require special assistance in order to participate, please contact RTC staff at 460-3200 (CRS 800/735-2929) at least three working days in advance of this meeting to make arrangements. People with disabilities may request a copy of the agenda in an alternative format. As a courtesy to those person affected, Please attend the meeting smoke and scent-free.

SERVICIOS DE TRADUCCIÓN/TRANSLATION SERVICES
Si gusta estar presente o participar en esta junta de la Comisión Regional de Transporte del condado de Santa Cruz y necesita información o servicios de traducción al español por favor llame por lo menos con tres días laborables de anticipo.
1. Call to Order

2. Introductions

**Members Present:**
Kem Akol, District 1  
David Casterson, District 2, Chair  
Jim Cook, District 2 (Alt.)  
Peter Scott, District 3  
Will Mencine, District 3 (Alt.)  
Amelia Conlen, District 4  
Rick Hyman, District 5  
Bill Fieberling, City of Santa Cruz  
Daniel Kostelec, City of Capitola (Alt.)  
Leo Jed, CTSC, Vice-Chair  
Emily Glanville, Ecology Action/Bike to Work

**Unexcused Absences:**

**Excused Absences:**
Carlos Garza, City of Santa Cruz (Alt.)  
Gary Milburn, City of Scotts Valley (Alt.)  
Holly Tyler, District 1 (Alt.)  
Myrna Sherman, City of Watsonville  
Jim Langley, CTSC (Alt.)  
Lex Rau, City of Scotts Valley  
Andy Ward, City of Capitola  
Piet Canin, Ecology Action/Bike-to-Work (Alt.)

**Vacancies:**
District 4 and 5 – Alternates  
City of Watsonville – Alternate

3. Announcements – Cory Caletti noted that the next meeting date is listed incorrectly in the agenda and that it should be Feb 9th, 2015. She also reminded members that the Brown Act dictates that a number of members constituting a quorum may not meet outside the publicly noticed Bicycle Advisory Committee meetings to discuss committee related business.

4. Oral communications – None
5. Additions or deletions to consent and regular agendas – None

**CONSENT AGENDA**

A motion (Scott/Conlen) to approve the consent agenda passed unanimously with members Akol, Casterson, Scott, Conlen, Hyman, Fieberling, Kostelec, Jed and Glanville voting in favor. No votes were cast in opposition.

6. Accepted draft minutes of the October 20, 2014 Bicycle Advisory Committee meeting

7. Accepted summary of Bicycle Hazard reports

8. Accepted Bicycle Advisory Committee roster

9. Accepted Draft 2015 Bicycle Advisory Committee meeting schedule and tentative agenda items

10. Approved recommendation to the RTC to approve a Transportation Development Act Claim from the City of Santa Cruz for bikeway maintenance

11. Accepted update on the Passenger Rail Study

12. Accepted letter from the Bicycle Advisory Committee regarding Arana Gulch multi-use path improvements

**REGULAR AGENDA**

13. RTC-Funded Project List – Rachel Moriconi, RTC Senior Transportation Planner, summarized the staff report and the process for input into RTC-funded projects. Members requested information on the status of a number of projects and noted that it would be helpful to receive designs plans for certain projects from local jurisdictions. Steve All, member of the public, inquired into the status of the RTC’s Bike Route Signage Program and spoke about the CycleNet bike route numbering protocol he developed.

14. Draft “Guidelines to Protect the Safety of Bicyclists, Pedestrians and Disabled Travelers During Road Construction” - Theresia Rogerson, CTSC staff, provided an overview of the road construction guidelines that is distributed to local jurisdictions and their contractors. Members provided feedback for minor improvements for the current draft update.

15. Graham Hill Road: Current conditions and safety improvement recommendations – A presentation was provided by Bicycle Advisory Committee alternate Will Menchine. After some discussion, a motion was made (Hyman/Jed) to send a letter to Commissioners Coonerty and McPherson, as well as City and County Public Works staff, requesting investigation of installing a bike lane in the uphill direction from Ocean Street to Michael Lane and placing “Bikes May Use Full Lane” signage in the downhill direction. The motion passed with members Akol, Casterson, Scott, Conlen, Hyman, Fieberling, Kostelec, Jed and Glanville voting in favor. No votes were cast in opposition.

16. Member updates related to Committee functions – Amelia Conlen reminded members that they instructed staff to bring the RTC-funded project list for their review twice a year and that Bicycle Advisory Committee members had agreed to check in with their appointing Commissioners periodically regarding active projects and long term bicycle related goals. Kem Akol announced
an upcoming Arana Gulch Multi-Use Trail Ribbon Cutting event. Leo Jed announced a bicycle history exhibit being held in San Jose and expressed concerns about the new green bike lanes in Soquel Village. He and Amelia Conlen volunteered to reach out to County Public Works staff to discuss the project and better understand the County’s design considerations. Daniel Kostelec discussed the limited bike and pedestrian facilities to access the new bicycle pump track on McGregor Drive near New Brighton State Park. He indicated that he would re-engage City of Capitola Public Works staff to discuss possible improvements.

17. Adjourned: 8:30 pm

NEXT MEETING: The next Bicycle Committee meeting is scheduled for Monday, February 9, 2015, from 6:00 pm to 8:30 pm at the RTC office, 1523 Pacific Ave, Santa Cruz, CA.

Minutes respectfully prepared and submitted by:

Cory Caletti, Senior Transportation Planner

As a courtesy to those persons affected, please attend the meeting smoke and scent free.
January 23, 2015

Rhonda L. Craft, Director  
Office of Traffic Safety  
2208 Kausen Drive, Ste. 300  
Elk Grove, CA  95758-7115

RE: Letter of Support for the County of Santa Cruz Health Services Agency 2016 Office of Traffic Safety grant

Dear Ms. Craft:

On behalf of the Regional Transportation Commission’s Bicycle Advisory Committee, I wish to extend our support to the Santa Cruz County Health Services Agency (HSA) in their application for the FFY 2016 Office of Traffic Safety grant proposal. These funds will be utilized to support our collaborative efforts to improve traffic safety and reduce injuries and fatalities to bicyclists and pedestrians in Santa Cruz County.

The Regional Transportation Commission’s Bicycle Advisory Committee serves to assist in the development and maintenance of a complete, convenient and safe regional bicycle and pedestrian network. Such a network increases the opportunity and attractiveness of bicycle and pedestrian trips for transportation purposes. The HSA grant complements the Bicycle Advisory Committee’s goals to increase the number of safe bicycle trips through safety awareness and education, including plans to distribute information to motorists about driving safely around more vulnerable road users.

RTC provides direct funding to HSA’s Ride ‘n Stride Program, the Community Traffic Safety Coalition, including the coalition’s South County Bicycle and Pedestrian Work Group, to address community wide bicycle and pedestrian safety education and inter-jurisdictional collaboration on traffic safety needs. The proposed OTS grant funding would enhance

Please feel free to contact the Regional Transportation Commission’s Bicycle Coordinator and staff to the Bicycle Advisory Committee, Cory Caletti at (831) 460-3201 or by email at ccaletti@sccrtc.org, for this and any other Bicycle Committee related matters.

Sincerely,

David Casterson  
Chair, SCCRTC Bicycle Advisory Committee

RE: Improvements to Graham Hill Road

Dear Supervisors Coonerty and McPherson:

I’m writing on behalf of the Bicycle Advisory Committee of the Regional Transportation Commission (RTC). As you know, the Committee serves to assist in the development and maintenance of a complete, convenient and safe regional bicycle network. Committee members frequently engage with members of your staff and the broader community to bring recommendations for infrastructure improvements.

At the most recent meeting of the Bicycle Advisory Committee, a presentation was received from Committee Alternate Will Menchine detailing areas of concern on Graham Hill Road. Current conditions were presented through a detailed power point presentation and safety improvements were recommended. The Committee voted to request that the City and County Public Works Departments investigate installing a bike lane in the uphill direction from Ocean Street to Michael Lane and placing “Bikes May Use Full Lane” signage in the downhill direction. Committee members would appreciate a response to this recommendation.

The Committee thanks you for your ongoing work and for considering these requests. Please feel free to contact the RTC’s Bicycle Advisory Coordinator and staff to the Bicycle Advisory Committee, Cory Caletti at (831) 460-3201 or by email at ccaletti@sccrtc.org, for this and any other committee related matters.

Sincerely,

David Casterson
Bicycle Committee Chair

John Presleigh, County of Santa Cruz Public Works
Santa Cruz County Regional Transportation Commission
Santa Cruz County Regional Transportation Commission’s Bicycle Committee
RECOMMENDATION

People Power requests that the Bicycle Advisory Committee host a discussion on green lane treatments at freeway interchanges, selects the two highest-priority interchanges for these treatments to be installed, and submits their recommendations in a letter to the County of Santa Cruz Public Works Department.

BACKGROUND

The County of Santa Cruz has recently installed the first green lane treatments in the county on Soquel Drive at the intersections of Daubenbiss and Porter. This project was followed by the installation of green lane treatments by the City of Santa Cruz on Laurel Street.

According to the NACTO Urban Bikeway Design Guide, “Colored pavement within a bicycle lane increases the visibility of the facility, identifies potential areas of conflict, and reinforces priority to bicyclists in conflict areas... Colored pavement can be utilized either as a corridor treatment along the length of a bike lane or cycle track, or as a spot treatment, such as bike box, conflict area, or intersection crossing marking. Consistent application of color across a bikeway corridor is important to promote clear understanding for all users.”

Green lane treatments at interchanges have been installed at Alpine Road and Highway 280 in San Mateo County, and at the Highway 101 on/off ramp at California Street in San Luis Obispo. Read more about those projects via the links below:

San Mateo: http://sf.streetsblog.org/2013/12/06/three-years-later-san-mateo-county-adds-bike-lanes-to-deadly-interchange/

San Luis Obispo: http://www.slobc.org/wordpress/?p=93
DISCUSSION

People Power has been working to see dashed green lane treatments installed at freeway interchanges in Santa Cruz County. While crash data at these locations is fairly low*, we have experienced and hear anecdotally from our members that interchanges are scary places to ride. Interchanges are conflict zones, with traffic merging across the bike lane to get on the freeway, often at high speeds. Dashed green lane treatments at interchanges would serve to:

- Promote the multi-modal nature of the corridor.
- Increase the visibility of bicyclists.
- Raise motorist and bicyclist awareness to potential areas of conflict.
- Increase bicyclist comfort through clearly delineated space.
- Increase motorist yielding behavior.
- Help reduce bicycle conflicts with turning motorists.

These benefits are documented in the NACTO Urban Bikeway Design Guide. For more information, visit: [http://nacto.org/cities-for-cycling/design-guide/bikeway-signing-marking/colored-bike-facilities/](http://nacto.org/cities-for-cycling/design-guide/bikeway-signing-marking/colored-bike-facilities/)

* From 2003 – 2013, there were three recorded cyclist injuries at the Soquel Drive interchange and three injuries at the State Park Drive interchange. Interchanges at 41st Avenue, Bay/Porter, Rio Del Mar and Freedom Boulevard did not have recorded cyclist injuries within that time frame.

SUMMARY

People Power requests that the Bicycle Advisory Committee hold a discussion on green lane treatments at freeway interchanges and selects the two highest-priority interchanges for these treatments to be installed. This recommendation will be used by the County of Santa Cruz to communicate with Caltrans about implementation of green lane treatments.

RECOMMENDATIONS

Regional Transportation Commission staff recommends that the Bicycle Committee review the Draft Committee Member Travel Expense Reimbursement Policy (Attachment 1) and Draft Committee Member Travel Expense Reimbursement Form (Attachment 2).

BACKGROUND

The FY 2010-2012 Triennial Performance Audit recommends that the RTC enhance recruitment efforts to fill vacant positions on the E&D TAC. Consistent with the Triennial Performance Audit suggestions, E&D TAC and RTC staff are recommending consideration of a policy to allow for reimbursement of direct travel expenses to and from committee meetings and targeted outreach activities to encourage broad participation and fill committee member vacancies.

DISCUSSION

RTC staff is recommending consideration of a Committee Member Travel Expense Reimbursement Policy for inclusion in the RTC’s Rules and Regulations and Administrative and Fiscal Policies, which would apply to all RTC Committees, as a strategy to fill committee member vacancies and encourage broad public participation. The policy would allow for reimbursement of direct expenses required for travel to and from committee meetings for committee members who are not staff of appointing agencies and who have completed an ethics training course as required by Assembly Bill (AB) 1234 of 2005.

RTC staff recommends that the Bicycle Committee review the draft Committee Member Travel Expense Reimbursement Policy (Attachment 1) and draft Committee Member Travel Expense Reimbursement Form (Attachment 2). If the policy is adopted, outreach materials to potential applications would include mention of the Committee Member Travel Expense Reimbursement Policy.

E&D TAC reviewed the draft Committee Member Travel Expense Reimbursement Policy and draft Committee Member Travel Expense Reimbursement Form at the January 6, 2015 meeting. E&D TAC recommended that the Draft Committee Member Travel Expense Reimbursement Policy include mileage rate for pedestrians, provide reimbursement for transit services in the amount equal to a transit day pass, allow
for reimbursement of recently deployed on demand taxi services (also referred to as
taxi-like services), and indicate that proof of paratransit service be provided using
ride logs, not receipts. RTC staff revised the draft Committee Member Travel
Expense Reimbursement Form to address transportation verification requirements.
RTC is not recommending providing reimbursement for pedestrian transportation
expenses in the policy.

SUMMARY

RTC staff is recommending consideration of a Committee Member Travel Expense
Reimbursement Policy for inclusion in the RTC’s Rules and Regulations and
Administrative and Fiscal Policies to apply to all RTC Committees, as a strategy to
fill committee member vacancies and encourage broad public participation. RTC
staff recommends that the Bicycle Committee review the draft Committee Member
Travel Expense Reimbursement Policy (Attachment 1) and draft Committee Member
Travel Expense Reimbursement Form (Attachment 2).

Attachments:

1. Draft Committee Member Travel Expense Reimbursement Policy
2. Draft Committee Member Travel Expense Reimbursement Form
DRAFT COMMITTEE MEMBER TRAVEL EXPENSE REIMBURSEMENT POLICY

The Santa Cruz County Regional Transportation Commission (RTC) committees function best when all committee membership and alternate positions are filled. RTC committee members serve without compensation. RTC committee members, who are not on the staff of an appointing agency and who have completed an ethics training course (pursuant to Assembly Bill 1234 of 2005), shall be eligible to receive reimbursement for direct transportation expenses for travel to and from committee meetings as follows:

- Reimbursement shall not exceed $25 dollars per committee meeting;
- Reimbursements shall be requested within 90 days of expenditure;
- Reimbursements shall be submitted to the RTC staff person assigned to the committee and require approval of the administration services officer and executive director or designee;
- Reimbursement request requires a completed and signed Committee Member Travel Expense Reimbursement Form. Committee Member Travel Expense Reimbursement Form must be submitted and accompanied by:
  - a receipt for expense, or other verifiable documentation of transportation;
  - a copy of the approved committee meeting minutes or sign-in sheet;
- Eligible transportation expenses include:
  - vehicle mileage at the IRS allowable rate
  - bicycle mileage at the Caltrans allowable rate
  - vehicle and bicycle parking while attending committee meetings
  - transit pass up to the cost of one day pass
  - paratransit service
  - taxi service, if other transportation options are not available
- Non-eligible expenses include, but are not limited to, parking and traffic tickets, travel expenses to and from subcommittee meetings, travel costs to and from outside of the County of Santa Cruz

Bike Com - Feb 9, 2015: 17
RECOMMENDATION

Staff recommends that the Elderly & Disabled Transportation Advisory Committee:

Review and provide comments on the draft 2015 Monterey Bay Area Public Participation Plan.

BACKGROUND

The federally required Monterey Bay Area Public Participation Plan (PPP) is a comprehensive document that aims to guide the public participation process for regional planning agencies and local jurisdictions in the tri-county Monterey Bay Region that either receive federal transportation funds or are subject to a federally required action. The Association of Monterey Bay Area Governments (AMBAG), as the federally designated Metropolitan Planning Organization (MPO) for the Monterey Bay Region, prepares and adopts the PPP at least once every four years in coordination with regional agencies and project sponsors. The Monterey Bay Area Public Participation Plan was last adopted in April 2011. The PPP emphasizes expanded public participation for all stakeholders, to the greatest extent possible. It also emphasizes the transportation decision making process, including the expanded use of visualization techniques and online marketing strategies in public outreach.

AMBAG is required to use the Public Participation Plan as a guide for all public involvement activities conducted by the MPO. Therefore, the PPP contains the procedures, strategies and techniques used by AMBAG, RTC, and other entities for public involvement in programs and projects that utilize federal transportation funds. Development of the PPP includes involvement and collaboration with planners and decision makers from all local jurisdictions within the region. Projects utilizing state and federal funds should include public participation components consistent with the Public Participation Plan.

DISCUSSION

The 2015 Public Participation Plan will cover a four-year period from 2015-2019 and is being updated to comply with the federal transportation act - Moving in Progress for the 21st Century (MAP-21). The Draft 2015 Public Participation Plan is currently being prepared in coordination and consultation with the following partner agencies to help enhance transportation decision making and to create a more inclusive public participation process within the Monterey Bay Region: Santa Cruz County Regional Transportation Commission (SCCRTC), San Benito County Council of Governments (SBtCOG), Transportation Agency for Monterey County (TAMC), Santa Cruz Metropolitan Transit District (SCMTD) and Monterey-Salinas Transit (MST).
In addition to complying with requirements, the PPP is an excellent opportunity to reevaluate outreach and engagement strategies to determine where to get the “best bang for the buck.” Not only is it good public policy, but also many, if not all, funding sources require a level of public engagement. The more the PPP can provide meaningful participation tools, the better competitive position our region will be in to secure funding.

Below are key dates for developing the 2015 Public Participation Plan (currently at the arrow):

- **January 15, 2015**: Overview of the Draft 2015 PPP and Timeline at SCCRTC’s ITAC Meeting
- **February 11, 2015**: AMBAG Board of Directors asked to release the Draft 2015 PPP for public comment
  - **February 2015**: Announce release of the PPP’s public comment period and seek input from SCCRTC’s Advisory Committee Meetings (Bike, E&D, ITAC)
- **March 11, 2015**: Public Hearing on Draft 2015 PPP at AMBAG’s Board Meeting (anticipated)
- **March 27, 2015**: Close of the public comment period
- **April 8, 2015**: AMBAG Board of Directors scheduled to adopt the Final 2015 PPP

The outline for the PPP is attached (Attachment 1). At the time of writing this staff report, the full PPP document is being prepared with agenda materials for the February 11 AMBAG. However it is assumed that the AMBAG packet will be available and posted when E&D TAC committee members receive this agenda packet. To view the full document, please log onto the AMBAG website and search the 2/11/15 packet for the Draft PPP item.

A summary of public outreach activities utilized by the RTC to provide information and solicit public input on the RTC’s plans, programs and projects is attached (Attachment 2). The RTC’s existing outreach process includes conducting open public meetings and hearings to consider transportation issues with its standing committees and commissioners, opportunity to comment on plans, programs and projects, as well as outreach through the RTC’s websites, social media, new releases and informational materials prepared for public presentations. Public participation activities can provide a feedback loop to projects to inform and vet issues in the project planning and development stages which help mitigate potential issues early on. **The Bicycle Committee is encouraged to provide feedback on the full Public Participation Plan, the RTC public participation activities, as well as suggest other strategies to engage the community.**

**SUMMARY**

The Association of Monterey Bay Area Governments (AMBAG) is required by federal regulations to prepare and maintain a public participation plan for the tri-county region, which describes how public participation will be structured for federally-funded transportation plans, programs and projects in the region.

TO: Bicycle Committee  
FROM: Ginger Dykaar, Transportation Planner  
RE: October 2014 Bicycle and Mode Split Counts

---

RECOMMENDATIONS

Staff recommends that the Bicycle Committee receive information on the October 2014 Bicycle and Mode Split Counts

---

BACKGROUND

The Santa Cruz County Regional Transportation Commission (RTC) performed bicycle, pedestrian and motor vehicle counts at 10 locations throughout the county (Attachment 1, Figure 1) on Thursday, October 16, 2014. This data was collected in order to measure bicycle and pedestrian ridership trends, plan for bicycle and pedestrian infrastructure improvements, and monitor the progress of our county in moving towards a more sustainable transportation system.

DISCUSSION

A consultant was hired to take bicycle and pedestrian counts by installing cameras at the 10 intersections to record the bicycle and pedestrian activity. Bike and pedestrian counts were tallied by the consultant by viewing the videos after the data was collected. Bicycle and pedestrian counts recorded the direction from which bicyclists travel and their turning movement through the intersection broken down into 15 minute intervals (Attachment 1, Figure 2). Motor vehicle counts using hoses were also collected at these 10 intersections at the same times as the bicyclist and pedestrian counts to provide mode split data.

The key findings from this data collection effort are:

- The top three intersections with the greatest number of bicyclists that were counted during the October 2014 count were Bay Dr. and High St.(UCSC); Seabright Ave. and Murray St.; and Front St. and Laurel St. (Attachment 1, Figure 3)
- Average mode share at the 20 locations measured was 94.5% motor vehicle, 1.8% bike and 3.6% pedestrian. (Attachment 1, Figure 4)
- The highest bicycle mode share (7.1%) was on Bay Dr (south of High St) in the City of Santa Cruz. (Attachment 1, Figure 4)
- The highest pedestrian mode share (16.2%) was on Union St (north of Maple Ave) in the City of Watsonville. (Attachment 1, Figure 4)
• The total bike counts at all 10 locations were lower in October 2014 than in Community Traffic Safety Coalition May 2014 Count (Attachment 1, Figure 5).

SUMMARY

The October 2014 bicycle, pedestrian and motor vehicle count data provides data to assess ridership trends and mode split at key intersections in Santa Cruz County.

Attachments

S:\Bike\Bike Count Info\RTC Count data\Staff Reports\SR_BikeCountRept-BC.docx
INTRODUCTION

The Santa Cruz County Regional Transportation Commission (RTC) performed bicycle, pedestrian and motor vehicle counts at 10 locations throughout the county (Figure 1) on Thursday, October 16, 2014. This data was collected in order to measure bicycle and pedestrian ridership trends, plan for bicycle and pedestrian infrastructure improvements, and monitor the progress of our county in moving towards a more sustainable transportation system. Vehicle occupancy counts and truck volumes were also counted on Thursday, October 16, 2014 on Highway 1 and Highway 17 at peak am and pm time periods to assess average vehicle occupancy, percentage single occupant vehicles and truck volumes.

METHODOLOGY

Mode Split Counts

A consultant was hired to take bicycle and pedestrian counts by installing cameras at the 10 intersections to record the bicycle and pedestrian activity. Bike and pedestrian counts were tallied by the consultant by viewing the videos after the data was collected. Bicycle and pedestrian counts recorded the direction from which bicyclists travel and their turning movement through the intersection broken down into 15 minute intervals (Figure 2). Motor vehicle counts using hoses were also collected at these 10 intersections at the same times as the bicyclist and pedestrian counts to provide mode split data.
Vehicle Occupancy Counts

A consultant was hired to take vehicle occupancy counts on Highway 1 between Soquel Ave and 41st Ave and on Highway 17 at the summit on Thursday, October 16, 2014. Counts were taken manually by two observers in each direction, one observing the fast lane and the other observing the slow lane for a period of three hours (am peak - 6:45 to 9:45am and pm peak - 3:30 to 6:30pm). Vehicle occupancy counts provide a means for monitoring the rate of carpooling in a corridor.

Truck Volumes

Truck volumes were also taken by a consultant on Thursday, October 16, 2014 Highway 1 between Soquel Ave and 41st Ave and on Highway 17 at the summit. Counts were taken manually by one observer in each direction for a period of three hours (am peak -6:45 to 9:45am and pm peak - 3:30 to 6:30pm). For the purposes of these counts, only commercial trucks with more than two axles were categorized as trucks. Pickups and small trucks were not included in the counts.

RESULTS

The key findings from this data collection effort are:

- The top three intersections with the greatest number of bicyclists counted during the October 2014 count were Bay Dr. and High St.(UCSC); Seabright Ave. and Murray St.; and Front St. and Laurel St. (Figure 2).
- Average mode share at the 20 locations measured was 94.5% motor vehicle, 1.8% bike and 3.6% pedestrian. (Figure 3).
- The highest bicycle mode share (7.1%) was on Bay Dr (south of High St) in the City of Santa Cruz. (Figure 4).
- The highest pedestrian mode share (16.2%) was on Union St (north of Maple Ave) in the City of Watsonville. (Figure 4).
- The total bike counts at all 10 locations were lower in October 2014 than in the Community Traffic Safety Coalition May 2014 Count (Figure 5).
- The change in total motor vehicle count volumes compared to May 2012 data was a minor decrease of 1.2% (Figure 6).
- Vehicle occupancy counts were lower in the am peak period versus the pm, there were a greater percentage of single occupant vehicles (with the exception of Hwy 17 SB) and truck volumes in the am peak period (Figures 7 and 8).

### Figure 8. Santa Cruz County Vehicle Occupancy Count Trends – Highway 1 and Highway 17
AGENDA: February 9, 2015

TO: Bicycle Committee

FROM: Rachel Moriconi, Senior Transportation Planner

RE: Identification of Priority Bicycle Projects

RECOMMENDATIONS

Staff recommends that Bicycle Committee members identify a few priority bicycle projects for each jurisdiction, as well as regional projects that might be good candidates for the state’s Active Transportation Program and other grant programs over the next several years.

BACKGROUND

Project sponsors, committee members, and the public identify transportation needs for Santa Cruz County through a variety of planning efforts, including development of the Regional Transportation Plan (RTP), Climate Action Plans, General Plans, Capital Improvement Programs, and Bicycle Plans. Since transportation funding is insufficient to meet all the transportation needs, project sponsors and funding agencies are continually confronted with the challenge of deciding which limited number of projects to move forward. They must also take into consideration scoring criteria set for specific funding sources.

DISCUSSION

There are several grant opportunities forthcoming for bicycle projects, including the State’s Active Transportation Program (Attachment 1: ATP Summary). Given the limited funds available and that many grant programs do not include a role for bicycle advisory committees in ranking projects, committee members may wish to identify a few priority projects in each area of the county that members consider the most important to pursue in the next few years. The list might include region-wide projects, as well as two to five projects for each city, and unincorporated areas of the county (e.g. San Lorenzo Valley, Aptos/Rio Del Mar, Live Oak/Soquel, Corralitos/Freedom). This prioritized list could help local agencies and the RTC focus on certain projects as funding becomes available. This list is advisory in nature only.
Identifying Priority Projects

As a starting point, the committee could consider criteria often used when evaluating projects (Attachment 1), Bicycle Plans prepared by Local Jurisdictions (see links: http://www.sccrtc.org/services/bike/), sections of the Monterey Bay Sanctuary Scenic Trail Network (MBSST), and the list of projects submitted to local jurisdictions in 2011 (Attachment 2). In addition, over 300 transportation projects identified by local jurisdiction and members of the public as transportation needs in the 2014 RTP include bicycle components. RTP project maps (Chapter 6) and list (Appendix E) are online at: http://www.sccrtc.org/funding-planning/long-range-plans/rtp/2014-plan/

SUMMARY

Given that available state, federal, and local funding is insufficient to fund all of the transportation projects needed to maintain and improve the transportation system, staff recommends that the Committee identify some of the most significant projects needed to improve the bicycle network in each area of Santa Cruz County.

Attachment:
1. Active Transportation Program (ATP) Summary
2. Sample Issues Considered When Prioritizing Projects
3. 2011 Memo to Local Jurisdictions of Bicycle Committee priorities
Active Transportation Program –Summary of Draft Guidelines (ver. 1/15)

Background

State and federal bicycle and pedestrian oriented funding programs have been consolidated into one new Active Transportation Program (SB 99 and AB101 – 2013). With this new program the separate Safe Routes to Schools (state and federal) and Bicycle Transportation Account (BTA) grant programs have been eliminated. Federal Transportation Alternatives Program (TAP) funds are also distributed through this new program.

Program goals:

- Increase the proportion of trips accomplished by biking and walking
- Increase safety and mobility for nonmotorized users
- Advance the active transportation efforts of regional agencies to implement SB 375
- Enhance public health
- Ensure disadvantaged communities fully share in benefits of the program.
- Provide a broad spectrum of projects to benefit many types of active transportation users.

Available Funds: Approximately $120 million will be available for the ATP each year. Includes a combination of federal TAP (~$64M), other federal (~$20M) and State Highway Account (SHA) revenues (~$34M)

- In 2014 the CTC programmed 3-years of funds (FY13/14-15/16)
- 2015 Cycle=FY16/17-18/19

Distribution: Funds available for the program are split between large regions (40% of funds- not available to projects in Santa Cruz County), small urban/rural areas (10%), and a statewide competition open to all areas of the state (50%). For 2015 - Bike and pedestrian projects in Santa Cruz County are eligible to compete statewide for approx. $143M from the Statewide pool of funds, plus $36M set aside for Small Urban/Rural pool.

Draft Guidelines: The CTC is in the process of updating guidelines for the program and has received extensive input from stakeholders on Cycle 1. Changes proposed for Cycle 2 are relatively minor. The CTC is scheduled to adopt final guidelines on March 26, 2015.

What Types of Projects Are Eligible?

A wide variety of bicycle or pedestrian project are eligible: e.g. construction of new bikeways or walkways, improvements and maintenance of existing bikeways and walkways, safe routes to school projects, bicycle parking, traffic control devices to improve pedestrian/bike safety.
Scoring Criteria: Proposed projects will be rated and ranked on the basis of applicant responses to the below criteria. *(subject to change until guidelines adopted in March)*

- **Potential for increased walking and bicycling (0 to 30 points):** Especially among students, including the identification of walking and bicycling routes to and from schools, transit facilities, community centers, employment centers, and other destinations; and including increasing and improving connectivity and mobility of non-motorized users.
- **Safety (0 to 25 points):** Potential for reducing the number and/or rate of pedestrian and bicyclist fatalities and injuries, including the identification of safety hazards for pedestrians and bicyclists.
- **Public participation and Planning (0 to 15 points):** Identification of the community-based public participation process that culminated in the project proposal, which may include noticed meetings and consultation with local stakeholders. Project applicants must clearly articulate how the local participation process resulted in the identification and prioritization of the proposed project. For projects costing $1 million or more, an emphasis will be placed on projects that are prioritized in an adopted city or county bicycle transportation plan, pursuant to Section 891.2, pedestrian plan, safe routes to school plan, active transportation plan, trail plan or circulation element of a general plan that incorporated elements of an active transportation plan. In future funding cycles, the Commission expects to make consistency with an approved active transportation plan a requirement for large projects.
- **Cost-effectiveness, defined as maximizing the impact of the funds provided. (0 to 10 points—may reduce to 5 points):** Applicants shall discuss the relative costs and benefits of the range of alternatives considered and use new Caltrans benefit/cost model to quantify safety and mobility benefit in relation to total project cost and funds provided.
- **Improved public health** through the targeting of populations with high risk factors for obesity, physical inactivity, asthma or other health issues. (0 to 10 points)
- **Benefit to disadvantaged communities (0-10 points)** – at least 25% of funds statewide must be programmed to projects benefiting disadvantaged communities.
- **Leveraging non-ATP funds (0-5 points).** While a match is not required, projects that provide a match would receive additional points.
- **Use of the California Conservation Corps** or a qualified community conservation corps (0 to -5 points) - as partners to undertake or construct applicable. Points will be deducted if an applicant does not seek corps participation or if an applicant intends not to utilize a corps in a project in which the corps can participate.
- **Applicant’s performance on past grants (0 to -10 points):** This may include project delivery, project benefits (anticipated v. actual), and use of the California Conservation Corps or qualified community conservation corps (planned v. actual). Applications from agencies with poor performance records on past grants may be excluded from competing or may be penalized in scoring.

Tentative Schedule: *(subject to change until guidelines adopted in March)*

- Commission adopts Active Transportation Program Guidelines - March 26
- Call for projects - March 26
- Project applications due to CTC/CT – June 1
- CTC Staff recommendation for statewide rural & small urban portions - Sept 15
- Commission adopts statewide and rural/small urban portions – Oct 22

**Disadvantaged Communities**

For a project to contribute toward the Disadvantaged Communities funding requirement, the project shall clearly demonstrate a benefit to a community that meets any of the following criteria:

- The median household income is less than 80% of the statewide average based on census tract level data from the American Community Survey. Data is available at [http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml](http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml)

- An area identified as among the most disadvantaged 25% in the state according to latest versions of the California Communities Environmental Health Screening Tool (CalEnviroScreen) scores. Scores are available at [http://oehha.ca.gov/ej/ces11.html](http://oehha.ca.gov/ej/ces11.html).

- At least 75% of public school students in the project area are eligible to receive free or reduced price meals under the National School Lunch Program. Data is available at [http://www.cde.ca.gov/ds/sd/sd/filessp.asp](http://www.cde.ca.gov/ds/sd/sd/filessp.asp). Applicants using this measure shall indicate how the project benefits the school students in the project area or, for projects not directly benefiting school students, explain why this measure is representative of the larger community.

- If a project applicant believes a project benefits a disadvantaged community but the project does not meet the aforementioned criteria, the applicant may submit for consideration a quantitative assessment of why the community should be considered disadvantaged.
Attachment 2

SAMPLE CRITERIA USED TO PRIORITIZE PROJECTS

A variety of criteria may be used to evaluate and prioritize transportation projects. The following is a sampling of some of the items that projects sponsors, funding agencies and others often take into consideration when evaluating projects.

1. Number of people using/anticipated to use a facility or program
2. Safety: Potential for reducing the number and/or rate of fatalities and injuries; history of incidents and how project will address potential hazards
3. System preservation: Age of facility/equipment, replacement needs, cost of minor repairs to extend the useful life as compared to replacement or major rehabilitation
4. Improve access and travel options to key destinations (including commercial areas, schools, transit facilities, community centers, employment centers, and other destinations)
5. Reduce fuel consumption and greenhouse gas emissions, improve air quality
6. Reduce number of vehicle miles traveled; increase the proportion of trips accomplished by biking, walking, or transit, especially by students
7. Reduce congestion, travel times or delay and improve travel time reliability
8. Potential to improve efficiency/throughput on existing facilities (e.g. increasing transit riders, cyclists, carpools, etc)
9. Equity:
   a. Demographics: Population(s) benefitting from project
   b. Geographic balance
   c. Disadvantaged Communities: Improve travel options for disadvantaged communities; ensure disadvantaged communities fully share in the benefits of the program.
10. Public Input/Planning
    a. Identified needs
    b. Priorities identified in adopted plans
    c. Public input via meetings, surveys, committees, and board/council
    d. Review of existing program success, popularity (for non-infrastructure projects)
11. Timing of other projects (ability to consolidate/piggy back, even if one project might otherwise on its own be constructed several years later) - Ex. timed utility upgrades, new development, etc
12. Deliverability:
   a. Ability of agency to complete project
   b. Performance on past grants
   c. Full funding, financing; ability of project sponsor to cover anticipated cost increases
   d. Secured matching funds

13. Improve public health: Target health issues such as obesity, physical inactivity, asthma or other health issues.

14. Level of benefit to the region’s transportation system

15. Grant eligibility criteria (projects that fit grant requirements)

16. Mandated activities/Requirements (from planning documents, environmental review, development review, mitigation plans, etc)

**Costs:** In addition to benefits of projects, project sponsors and funding agencies also take into consideration of potential issues and costs associated with projects:

- Cost effectiveness – Quantification of the benefits in relationship to both the total project cost and the funds provided.
- Environmental impacts – including any negative impacts on biological resources, air quality/greenhouse gas emissions, traffic, land uses, cultural resources, hazards and hazardous materials, geology/soils, water quality, and noise.
- Safety hazards the project might create
- Ongoing maintenance cost of new or expanded facilities
Memo

DATE: October 3, 2011

TO: Local Jurisdictions

FROM: Rachel Moriconi and Cory Caletti, Senior Transportation Planners

RE: RTC Bicycle Committee’s Priority Bicycle Projects

In recognition that transportation funding is severely constrained, at its August 2011 meeting the Bicycle Committee identified a few projects per area/jurisdiction that the Committee considers most important to pursue in the next few years as funding opportunities arise. We encourage you to seek Bicycle Transportation Account, Safe Routes to Schools, Transportation Development Act, local, and other funds for these projects. The following are not in priority order.

Projects for all agencies/Multi-jurisdictional projects:
- Traffic signal actuation for bicycles
- Maintenance of existing bikeway network through vegetation abatement, regular bike lane restriping, hazard repairs, etc.
- Railroad-crossing grade improvements
- Close gaps in the bicycle transportation networks with low-cost, small projects (such as bike lane striping)
- Monterey Bay Sanctuary Scenic Trail Network (MBSST), with priority sections to be identified as part of the Master Plan process
- San Lorenzo Valley Bicycle Facilities, with an emphasis in the Felton area: may be on Highway 9, along rail line, and/or along river (Caltrans, County, City of Santa Cruz)
- Beach Street Bicycle Lanes from San Andreas Road (County through the City of Watsonville)
- Connection between Park Avenue, New Brighton, and Capitola Village (City of Capitola/County)
- Community Traffic Safety Coalition
- Bike to Work/School Program
- Bike Secure bike parking program
- Bicycle Route Signage

City of Capitola:
- Capitola Avenue Bicycle Lanes
- Monterey Avenue Bicycle Lanes
- Wharf Road - Completion of bike lanes from Capitola Road to Soquel Drive

City of Santa Cruz:
- Branciforte Creek Bike/Ped Crossing
- Broadway-Brommer Bike/Ped Path (aka Arana Gulch Path)
- King Street Bicycle facilities
- San Lorenzo River Bike/Ped Bridge adjacent to Railroad Bridge (near Boardwalk)

City of Scotts Valley:
- Casa Way Bike Lanes
- Bean Creek Road Bike Lanes
- Green Hills Road Bike Lanes or Sharrows

City of Watsonville:
- Freedom Boulevard Bike Lanes
- Lincoln Street Bicycle Lanes
- Main Street Bicycle Lanes

County of Santa Cruz:
- Graham Hill Road Bicycle Lanes
- Hwy 1 Ped/Bike Bridge at Chanticleer
- McGregor Drive Rehabilitation
- Soquel Drive Rehabilitation

Members noted that additional priorities may be identified in the future. Members of the Bicycle Committee thank you for considering prioritizing these projects when applying for grant funds.
