

**Santa Cruz County Regional  
Transportation Commission  
Service Authority for Freeway Emergencies**

---

**AGENDA**

**Thursday, June 4, 2015**

**NOTE LOCATION THIS MONTH  
Watsonville City Council Chambers  
275 Main Street, Suite 400  
Watsonville, CA**

**Immediately following the completion of the regular RTC meeting**

1. Oral communications

*Any member of the public may address the SCCRTC Service Authority for Freeway Emergencies (SAFE) for a period not to exceed three minutes on any item within the jurisdiction of the SCCRTC SAFE that is not already on the agenda. The SCCRTC SAFE will listen to all communication, but in compliance with the State Law, will not take action on items that are not on the agenda.*

*Speakers are requested to sign the sign-in sheet so that their names can be accurately recorded in the minutes of the meeting.*

2. Additions or deletions to consent and regular agendas

**CONSENT AGENDA**

*All items appearing on the consent agenda are considered to be minor or non-controversial and will be acted upon in one motion if no member of the SCCRTC SAFE or public wishes an item be removed and discussed on the regular agenda. Members of the SCCRTC SAFE may raise questions, seek clarification or add directions to Consent Agenda items without removing the item from the Consent Agenda as long as no other SCCRTC SAFE member objects to the change.*

*No consent items.*

**REGULAR AGENDA**

3. Safe on 17 Safety Corridor Project – 2014 Annual Report  
(*Ginger Dykaar, Transportation Planner*)
  - a. Staff report
  - b. Safe on 17 Highway 17 Safety Corridor Project *2014 Annual Report*
4. Adjourn

S:\RTC\TC2015\TC0615\SAFE\2015-06-04-safe-agenda.docx

**AGENDA:** June 4, 2015

**TO:** Regional Transportation Commission/Service Authority for Freeway Emergencies

**FROM:** Ginger Dykaar, Transportation Planner

**RE:** Safe on 17 Safety Corridor Project – 2014 Annual Report

---

## **RECOMMENDATIONS**

Staff recommends that the Regional Transportation Commission (RTC)/Service Authority for Freeway Emergencies (SAFE) accept the attached 2014 Annual Report for the Safe on 17 Safety Corridor Program ([Attachment 1](#)).

---

## **BACKGROUND**

In 1998, the California Highway Patrol (CHP) initiated the Safe on 17 Program with the aid of a grant from the California Office of Traffic Safety (OTS). The OTS grant was available from March 1999 to March 2002. During that period, injury and fatal collisions were reduced by 34% on Highway 17 from a pre-program average of 249 to 165 through a combination of CHP enforcement, roadway improvements, and a public information campaign. The Safe on 17 program is still active today due to the interest of multiple agencies to continue to improve safety on Highway 17. RTC SAFE provides \$50,000 per year for extra CHP enforcement on the Santa Cruz County side of Hwy 17 and the Metropolitan Transportation Commission SAFE provides \$50,000 per year for extra CHP enforcement on the Santa Clara County side of Hwy 17. In addition to the extra enforcement, Caltrans has spent tens of millions of dollars on numerous projects to improve safety on the Highway 17 corridor. The CHP compiles collision and citation statistics, and RTC SAFE continues to convene the Safe on 17 Task Force. The goal of the current program is to maintain the reduced collision rate achieved on Highway 17 during the OTS grant period.

## **DISCUSSION**

### 2014 Safe on 17 Annual Report

The 2014 Safe on 17 Annual Report ([Attachment 1](#)) reviews the work done by the CHP, Caltrans, RTC and other stakeholders to continue to improve safety on Highway 17. The annual report was prepared by RTC SAFE staff, with input from Caltrans and CHP staff. The 2014 Safe on 17 Program includes: extra enforcement, collision and citation rate monitoring, Safe on 17 Task Force Meetings, public information and outreach, and highway safety improvements. Below is a description of the 2014 Safe on 17 accomplishments. More detailed information regarding these activities is

available in the attached *2014 Annual Report*. **Staff recommends that the RTC accept the 2014 Safe on 17 Annual Report.**

**Collisions:** One hundred and seventy one injury collisions and three fatal collisions were reported in 2014. The fatal and injury collisions for 2014 were 30% lower than the preprogram average of 249. This reduction translates into 75 fewer fatal and injury collisions and 127 fewer property damage only collisions on the Highway 17 Safety Corridor for 2014 compared to the preprogram average. The total number of collisions for 2014 is 583.

The most recent three-year annual average of 154 surpasses the goal of the Task Force of maintaining the reduced collision rate three-year average achieved during the OTS grant period of 165 injury and fatal collisions. The overall annual average number of injury and fatal collisions for the SCCRTC and MTC SAFE funded period (2002-2014) also remains lower at 149 than the annual three-year average of the OTS grant period of 165. The *2014 Annual Report: Attachment 2* breaks-out annual collisions by type since 1996 and *2014 Annual Report: Attachment 3* includes 2014 monthly collision data for Highway 17 compared to historical monthly averages.

**Extra CHP Enforcement:** Increased CHP visibility and increases in the number of citations being issued on Highway 17 provides a deterrent to motorists who practice unsafe driving behavior. In 2014, there was a total of 1,503 hours of extra CHP enforcement.

**Citations:** In 2014, 9,057 citations were issued on Highway 17. Approximately 26% of these citations were issued during Safe on 17 extra CHP enforcement hours. Primary collision factors, including unsafe speed, improper turning and improper lane changes account for approximately 80% of all citations.

**Safe on 17 Task Force Meetings:** In 2014, the Task Force discussed the outcomes of the CHP's extra enforcement efforts, provided input on current Caltrans' Highway 17 projects and maintenance activities, and provided input on potential Highway 17 traffic operation improvements. Task Force members include CHP, Caltrans Districts 4 and 5, MTC SAFE, RTC SAFE, local legislators, local media and local police.

**Public Information:** Public information educates motorists about safety on Highway 17. In 2014, CHP included information about safe driving on Highway 17 at CHP sponsored events including new driver education programs held at high schools and motorcycle and community events.

**Highway 17 Safety Improvements:** Highway improvements are developed, coordinated and implemented by Caltrans, with input from the Safe on 17 Task Force. In 2014, Caltrans advanced or completed several important safety projects on Highway 17 including the Guardrail Improvement Project, the Highway 17 Summit Slide Repair Project, the Highway 17 Laurel Curve Shoulder Widening Project, and the Highway 17 Access Management Plan. Details about these projects are available in the *2014 Safe on 17 Annual Report*.

Funding for the Safe on 17 Program

The SCCRTC SAFE funds are generated from a \$1 fee per year on all vehicles registered in Santa Cruz County and are used to pay for the extra CHP enforcement on Highway 17 as well as other SAFE Programs. The SCCRTC SAFE has approved funding in the amount of \$50,000 per year for extra CHP enforcement on the Santa Cruz County side of Highway 17 through June 30, 2018. Although the cost per hour of CHP service has increased, funding levels for this program have remained constant due to flat SAFE fund revenues, and funding uncertainties associated with other programs, which also rely on SAFE funds, namely the Santa Cruz County Freeway Service Patrol Program.

**SUMMARY**

The 2014 Safe on 17 Annual Report (Attachment 1) reviews the work done by the CHP, Caltrans, RTC and other stakeholders to continue to improve safety on Highway 17. The 2014 Safe on 17 Program includes: CHP extra enforcement, collision and citation rate monitoring, Safe on 17 Task Force Meetings, public information and outreach, and highway safety improvements.

## Introduction

High collision rates on Highway 17 precipitated the formation of the Safe on 17 Task Force in 1999. The task force was convened to identify conditions and behaviors contributing to collisions on the corridor and to recommend and implement solutions. The task force drew from a broad set of disciplines to assemble strategies that would reduce the high collision rate. Strategies included enhanced enforcement, engineering (capital improvements), signing and striping, public education and awareness.

The present goal of the Safe on 17 Program is to maintain the reduced collision rate average achieved during the period funded by an Office of Traffic Safety grant (1999-2002) using a combination of the original recommendations made by the task force. Engineering improvements, enhanced CHP enforcement tactics, public outreach about motorist safety on Highway 17, and a traffic operations system contributed to surpassing this goal in 2014. The task force also continued to collect data to measure consistency with program goals, benchmark progress and monitor where additional improvements may be needed. Typically, safety corridor designations expire after a few years. However, the segment of Highway 17 between Highway 1 in Santa Cruz County and Highway 9 in Santa Clara County has maintained its safety corridor designation for more than 15 years ([Attachment 1](#)).

Funding for extra CHP enforcement is provided by the Santa Cruz County Regional Transportation Commission Service Authority for Freeway Emergencies (RTC SAFE) and the Metropolitan Transportation Commission Service Authority for Freeways and Expressways (MTC SAFE) in the combined amount of \$100,000 per year for each year covered in the funding agreement.

Caltrans continued to make capital improvements to Highway 17 in 2014. The Highway 17 Guardrail Upgrade Project was completed. The Highway 17 Summit Slide Repair and Highway 17 Laurel Curve Northbound Shoulder Widening projects were under construction in 2014. All of these projects are being constructed with the intent to reduce the number of collisions on Highway 17.

## 2014 Highway 17 Summary of Facts

- ▶ There were 3 fatal collisions and 171 injury collisions on the safety corridor in 2014.
- ▶ The total number of collisions for 2014 is 583.
- ▶ Injury collisions were highest in November 2014.
- ▶ CHP wrote an average of 25 citations per day on Highway 17.

## Collisions

One hundred and seventy one injury collisions and three fatal collisions were reported in 2014. The fatal and injury collisions for 2014 were 30% lower than the preprogram average of 249. This reduction translates into 75 fewer fatal and injury collisions and 127 fewer property damage only collisions on the Highway 17 Safety Corridor for 2014 compared to the preprogram average. The most recent three-year average for injury and fatal collisions is 154.

The Task Force strategies have reduced the number of fatal and injury collisions by an average of 39% over the last 15 years from the pre-program three year-average of 249. The most recent three-year average of fatal and injury collisions is 154, which surpasses the goal of the Task Force to maintain the reduced three-year collision rate average achieved during the OTS grant period of 165 injury and fatal collisions. The total annual average number of injury and fatal collisions for the SCCRTC and MTC SAFE funded period (2002 on) also remains lower at 149 than the annual average of the OTS grant period of 165. Figure 1 shows the annual injury and fatal collision data between 1996 and 2014. A breakdown of collisions by type is provided in [Attachment 2](#).

Figure 1: Annual Total Fatal & Injury Collisions on Highway 17, 1996-2014

A detailed comparison between 2014 monthly collisions and historical averages (1999-2013) is provided for both Santa Cruz and Santa Clara Counties in [Attachment 3](#). On the Santa Cruz County side of Highway 17, the highest number of total collisions (injury, property damage only and fatal) occurred in February and November 2014. On the Santa Clara County side, the highest number of collisions occurred in October 2014.

A combination of speeding, tailgating and unsafe lane changes (also called primary collision factors) are considered to be the most frequent factors leading to collisions on Highway 17 but distracted driving is also a growing threat to road safety. Since the Safe on 17 program began in the late 1990's a number of developments have increased driver distraction. These include:

- Significantly increased cellular phone usage
- Proliferation of text messaging over cellular phones
- Availability of smart phones with access to email and many other functions
- Usage of navigation systems through a variety of devices

Due to the proven negative impacts of these additional driver distractions, laws have been passed and campaigns have been waged to curtail their effect on collisions, yet many people drive under the influence of these distractions. These additional factors can cause an upward trend in the number of collisions, and may be the reason for the increased collision rate on Highway 17 for 2014.

External factors may also influence the total number of collisions. Wet weather is considered to increase traffic collisions due to wet pavement and a decreased visibility. Monthly rainfall data is plotted with the injury and fatal collision data for 2014 in [Attachment 4](#). Injury and collision data were highest in the spring and fall months of October through February. The total yearly rainfall in 2014 was 29.5 inches compared to a yearly average of 30.25 inches. The highest rainfall months for 2014 were February and December which accounted for about two-thirds of the yearly rainfall.

Traffic conditions are considered to be a factor in the number of collisions. Traffic conditions can be assessed in a number of ways including the Average Annual Daily Traffic (AADT). On Highway 17, the AADT has decreased by over 6000 vehicles since 2007 and thus may be a factor in the number of collisions on Highway 17 since this time (Figure 2).

**Figure 2. Traffic Volumes on Highway 17 at Santa Clara/Santa Cruz County Line**

California's basic speed law reminds us that as drivers, we are all responsible to drive in a manner that is reasonable and prudent with regard for weather, visibility, traffic and surface and width of the highway and that does not endanger the safety of people or property (CA Vehicle Code 22350).

## Extra CHP Enforcement

Extra CHP enforcement is an essential element of the Safe on 17 Program. The extra CHP enforcement is dispatched along all of the Highway 17 Safety Corridor, which is located between the Highway 1/17 interchange in Santa Cruz County and the Highway 9/17 interchange in Santa Clara County. Increased CHP enforcement on Highway 17 prevents collision causing behavior in two ways. First, high CHP visibility on Highway 17 serves to encourage safer driving and deter traffic violations. Second, increasing the number of citations is a mechanism for encouraging motorists to adhere to the rules of the road. The Santa Cruz and San Jose CHP offer a list of overtime opportunities to their officers, which makes-up the extra enforcement on Highway 17. The number of enforcement hours per month is dependent upon CHP staffing levels, competing overtime opportunities, and training requirements. In 2014, a total of \$132,708 was spent on extra CHP enforcement and 1,494 hours of extra CHP enforcement were worked (Table 1). [Attachment 5](#) summarizes the extra enforcement by month for 2014.

**Table 1: Annual Extra CHP Enforcement Hours Worked & Safe on 17 Funds Used**

Year	<i>San Jose CHP</i>		<i>Santa Cruz CHP</i>	
	Extra Enforcement Hours Worked	Safe on 17 Funds Used	Extra Enforcement Hours Worked	Safe on 17 Funds Used
<b>2003</b>	490	\$31,197	850	\$47,913
<b>2004</b>	610	\$38,129	709	\$45,728
<b>2005</b>	601	\$39,495	730	\$49,631
<b>2006</b>	680	\$51,590*	636	\$47,858
<b>2007</b>	909	\$76,953*	565	\$49,738
<b>2008</b>	706	\$61,652*	737	\$68,023*
<b>2009</b>	591	\$47,651	399	\$36,709
<b>2010</b>	22	\$1,842	308	\$27,224
<b>2011</b>	828	\$65,970**	705	\$55,047*
<b>2012</b>	576	\$45,072	681	\$54,045***
<b>2013</b>	340	\$30,849	812	\$70,152***
<b>2014</b>	852	\$72,886**	643	\$58,822***

\* Between 2006 and 2009, CHP was permitted to carryover funds not spent during the prior years to the current year, thus resulting in more than \$50,000 expended in services in some years. A new contract was initiated in 2009 with CHP and no unspent funds were carried over into the new contract, thus limiting expenditures in 2009 to \$50,000 per year for Santa Cruz and San Jose CHP.

\*\*The RTC provides the funds on a fiscal year and thus the amounts may be higher than \$50,000 when summed on a calendar year as reported here.

\*\*\*Santa Cruz CHP was permitted to carryover any unspent funds in future years.

## Citations

A total of 9,057 citations were issued on Highway 17 during 2014. Of these, 2,344 were given during Safe on 17 extra enforcement hours. Citations issued during overtime in 2014 made up 26% of citations. Total yearly citations since about 2008 have been on average about 9,000 to 10,000. In the earlier years of the program (2003 - 2007), total citations were in the range of 11,000 to 14,500 per year.

**Figure 3: 2014 Highway 17 CHP Citations by Regular & Overtime Hours**

**Figure 4: Total Citations by Citation Type (Primary Collision Factor, Mechanical, Other)**

The most overtime citations per month for 2014 were given in the beginning of the summer tourist season. Figure 3 illustrates the number of citations given during regular hours and overtime hours. [Attachment 6](#) provides a summary of annual total overtime and regular time citations and [Attachment 7](#) charts the annual citations from San Jose and Santa Cruz compared to historical averages. During extra CHP enforcement hours on Highway 17, officers focus on preventing behavior that is known to be a primary collision factor (PCF) such as speeding, tailgating or making unsafe lane changes. These focused efforts help achieve the Safe on 17 Program goal of limiting the number of injury and fatal collisions. Accordingly, in 2014, 80% of all citations given on Highway 17 were for PCF violations (Figure 4).

## CHP Data Reporting

As required, the Santa Cruz area and San Jose area CHP offices have been providing monthly collision and citation data since the Program's initiation ([Attachment 8](#)). The data is important for monitoring program effectiveness.

## **Safe on 17 Task Force Meetings**

The Safe on 17 Task Force is comprised of representatives from the San Jose and Santa Cruz area CHP, Caltrans Districts 4 and 5, MTC SAFE, RTC SAFE, local legislators' offices, local media, trucking industry, local police and fire departments ([Attachment 9](#)). In 2014, members continued to regularly attend the two scheduled meetings (March 12 and September 10) and committed to staying involved and working towards improving safety on Highway 17.

In 2014, the Task Force discussed the outcomes of the CHP's extra enforcement efforts, provided input on current Caltrans' Highway 17 projects and maintenance activities, and provided input on potential Highway 17 improvements. In addition, the Task Force routinely discusses issues related to the handling of incidents on this unique multi-jurisdictional corridor, opportunities for agency coordination, public education related to motorist safety, and Freeway Service Patrol Program activities.

Like in previous years, in 2014 both of the Safe on 17 meetings were combined with the RTC Traffic Operation Systems Oversight Committee Meetings. There is a significant overlap in membership in these committees and subject matter. Traffic operation systems elements such as closed circuit television cameras and changeable message signs can be tools for enhancing safety on the Highway 17 corridor and require coordination between the separate CHP and Caltrans jurisdictions covering the Highway 17 safety corridor.

## **Public Information**

In 2014, RTC SAFE, MTC SAFE, CHP and Caltrans continued to provide information to the public about the extra enforcement and safety on Highway 17. In 2014, CHP included information about safe driving on Highway 17 at CHP sponsored events, including new driver education programs held at high schools and motorcycle and community events. CHP also reminded the public about safe driving on Highway 17 during regular interviews and when reporting to the media about Highway 17.

In addition, in 2014, press releases were published by CHP which highlight extra enforcement efforts and educate motorists about safe driving ([Attachment 10](#)). The public was also reminded to drive safely using the changeable message signs located on Highway 17. Similar to previous years, the "Click it or Ticket", "Slippery Roadway Reduce Speed", "Share the Road Look Twice for Motorcyclists" and "Hands Free It's the Law" were frequently posted messages.

## **Highway Safety Improvements**

### Guardrail Improvement Projects

The Highway 17 guardrail project to upgrade guardrails at twenty-eight different locations between Scotts Valley and the Summit in Santa Cruz County (PM 6.1-12.5) was completed in 2014. Guardrail improvements included upgrading end treatments to current standards, replacing/reconstructing metal beam guardrail, and replacing some metal beam guardrail with concrete rail or K-rail. Guardrails can prevent vehicles from veering off the roadway or into oncoming traffic, or crashing against solid objects.

### Hwy 17 Summit Slide Repair

A project to construct a retaining wall with concrete slab and barrier along Hwy 17 near Scotts Valley (0.2 miles north of Glenwood Dr.) began construction in spring 2013. This project is anticipated to be completed by spring 2015.

### Highway 17 Laurel Curve Northbound Shoulder Widening

The Highway 17 project at Laurel Curve began in August of 2014. This project will widen the shoulder in the northbound direction. Wider shoulders allow motorists to have more room to correct themselves if they veer off the road. Wider shoulders can also provide a place for vehicles to pull off the road in an emergency and increase visibility around a curve. This project is scheduled to be completed in 2015.

### Highway 17 Access Management Plan

Caltrans District 5 is working with Santa Cruz County, California Highway Patrol and the Santa Cruz County Regional Transportation Commission to develop a plan that will identify issues and imbalances in access and mobility on Highway 17 between Granite Creek Rd in Scotts Valley and Summit Road at the Santa Cruz/Santa Clara County line. Public Outreach is a key component of the plan. The study will identify local, regional, and interregional needs through stakeholder engagement. This long term plan is needed to compete for funding to address access issues along this corridor.

## **Conclusion**

There were three fatalities and 171 injuries on the Hwy 17 corridor during 2014. With those collisions, the most recent three-year annual average is 154, which surpasses the goal of maintaining the reduced injury and fatal collisions (165) experienced during the initial Office of Traffic Safety grant period (1999-2002). The overall annual average number of injury and fatal collisions for the SCCRTC and MTC SAFE funded period (2002 – 2014) remains lower at 149 than the annual

average of the OTS grant period of 165. A number of factors may have contributed towards the increase in the number of collisions in 2014 including use of mobile devices while driving.

During 2014, Caltrans continued to implement safety improvements aimed at reducing wet weather and run-off-road collisions through guardrail upgrades and shoulder widening projects. Through public education, primarily CHP Start Smart events, and Caltrans signs (both static and changeable message signs), motorists are informed to “Take it Slow” on Highway 17. Extra CHP enforcement also provides a powerful disincentive to motorists to stop behaviors that cause collisions such as speeding, tailgating and unsafe lane changes. Despite the reduction in the number of collisions since the designation of Highway 17 as a safety corridor, the total number of collisions still warrants continued attention to improving safety on Highway 17. The Safe on 17 Task Force members continue to work collaboratively to identify and address factors that will have the greatest influence on reducing the number of collisions.

14-55

## **CHP ASKS FOR A DUI AND FATALITY FREE HOLIDAY SEASON**

SACRAMENTO, Calif. – With holiday celebrations upon us, the California Highway Patrol (CHP) is preparing for this heavily-traveled time of year by educating the motoring public about safety on our roadways. As part of its upcoming Maximum Enforcement Period (MEP) the CHP is reminding travelers to buckle up, adhere to the posted speed limit, avoid distractions behind the wheel, and always designate a sober driver.

The CHP's Christmas MEP enforcement effort begins Wednesday, December 24, 2014, at 6 p.m. and continues through Sunday, December 28, 2014, at 11:59 p.m. During this period, all available officers will be out on the roadways for enhanced enforcement efforts and assisting motorists wherever needed.

“Our intent with the enhanced enforcement efforts during the holiday season is simply to save lives,” said CHP Commissioner Joe Farrow. “We want everyone to have a happy holiday season this year and ensure nobody is forced to deal with the loss of a loved one.”

An anti-DUI effort is aimed at eliminating drunk-driving by educating Californians about the dangers of driving after consuming alcoholic beverages. According to the National Highway Traffic Safety Administration (NHTSA), more than 10,000 people are killed annually in America by drunk drivers. In December 2012 alone, 830 people died as a result of a collision caused by an impaired driver. This year, the CHP hopes to eliminate the added danger of intoxicated drivers on our roadways.

During the 30 hours of last year's Christmas holiday MEP, five people were killed in traffic collisions. Among those killed were two pedestrians, one motorcyclist, and two vehicle occupants who were not wearing seat belts. The CHP made 221 arrests for driving under the influence during the same 30-hour timeframe.

“Have a safe, fun, and enjoyable holiday celebration this year,” added Commissioner Farrow. “Just do it responsibly by making the right and responsible decision before you get behind the wheel and always designate a sober driver.”
