

The Seacliff Improvement Association...

invites friends, families, neighbors and RTC commissioners to stroll to the Aptos Village Green on the morning of August 3rd, 2024. Walk with us to Aptos Village from Seacliff to get a street view of the safety challenges pedestrians face walking to Aptos Village.

Upon arrival, participants will take a brief pedestrian survey, meet with representatives from local agencies, enjoy a snack from one of our event sponsors, New Leaf Community Market, and win prizes from Aptos Village merchants. We will then ask participants to audit their return trip and report pedestrian, bike and road hazards to appropriate agencies, and share hazard reporting methods with their friends and neighbors.

The focus of our successful grant application from America Walks was to demonstrate the importance of funding complete streets to safely connect Aptos Village with the rest of Aptos. The main goal of the stroll is to increase awareness and accessibility for all non-drivers, and specifically students, those employed in the village, transit riders, families, and those with mobility impairments.

Commuters face a very challenging drive as traffic backs up through the Aptos chokepoint on both sides of Highway 1. Those who opt to use Soquel Drive through Aptos Village add to the congestion of locals trying to visit village businesses. Each of us who chose to take our car off the road want drivers to appreciate this by respecting pedestrians and cyclists who use much less road space than a vehicle. Increased safety measures will help remind them to do so.

Attached is the neighborhood invitation and, if you decide to join us, you can meet Seacliff neighbor and Santa Cruz County Deputy CAO, Matt Machado, at Marianne's Ice Cream in Seacliff to begin your stroll.
