

# 2050 Regional Transportation Plan

---

Draft RTP

Tommy Travers, Transportation Planner

# What is a regional transportation plan?

The RTP is a state mandated long-range transportation plan and investment strategy that identifies transportation needs over the next twenty-plus years and is prepared every **four** years.

## 2045 Regional Transportation Plan for Santa Cruz County

December 2021 - DRAFT

Santa Cruz County Regional Transportation Commission

2050

All sources

# ■ Chapters of the RTP

1. Context – demographics, sustainability & health, transportation needs
2. Transportation network description
3. Goals & policies
4. Travel patterns & performance (targets) – statistics and trends
5. Financial element – expected funds
6. Project list description – type of spending, alignment with goals
7. Environmental review
8. Future technology

# Goal alignment

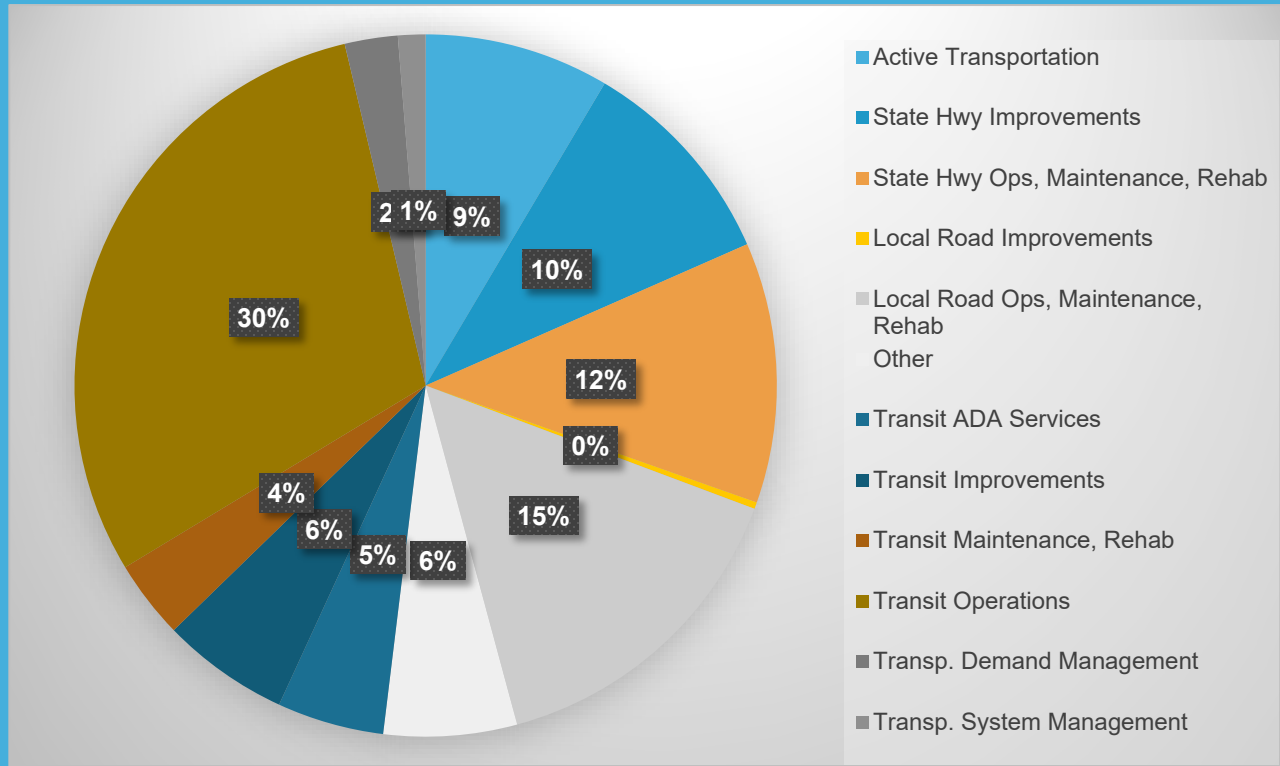

All constrained (likely funded) RTP projects, weighted by investment sum.

Hypothetically, if all the projects scored “high” for the goal, that goal’s score would be 10.

# Planned spending

Draft RTP: December 15

Draft MTP-SCS and DEIR: out now [ambag.org](http://ambag.org)

Public hearing January 15

Comments due January 30

MTP-SCS & EIR

Transportation & land use interaction

Impacts to emissions, mobility, & other metrics (future modeling)
