Subject: Trail Segment 12: 6/11/26 meeting agenda Item 30 and recent Fact Sheet
Date: Tuesday, June 9, 2026 12:05:58 AM

Hello RTC,

Is RTC hiring construction management before selecting the trail configuration on Segment 12?

The RTC's [March 2026 fact sheet](#) states that both the Ultimate and Interim Trail configurations remain under evaluation and that construction could begin as early as 2026. If the Commission hasn't yet selected the project configuration, does the construction management contract cover either?

What are the current construction cost estimates for Ultimate vs. Interim Trail Segment 12?

The 6/11/26 RTC meeting agenda Item 30 states that the Commission approved splitting the Highway 1 project from the Segment 12 Trail project, yet the fact sheet includes a combined project cost of \$244 million. Please provide the current cost estimates for each stand alone project: Highway 1 (Aux/BOS between State Park and Freedom), Segment 12 Ultimate Trail, and Segment 12 Interim Trail.

Has RTC secured funding to complete the construction of both the highway project and the trail project Segment 12 — in either Ultimate or Interim configuration?

Thank you for your consideration and clarification.

Sincerely,
Johanna Lighthill
